Detailed report

04/13/2020 - 04/19/2020

Total: 44:15:14 Billable: 44:15:14 Amount: 553.~~21~~ 553.13 GBP

Finance Managers Comments:

The team had predicted 43.5 hours for this week, week 5 of iteration 2.
We have gone over on estimated hours in total of 32.75 for the entire project.
We have only gone over on hours by 0.75 so have used up a very small amount of the company redundancy and so still have £583.41 extra in the pot. The company remains in a comfortable place financially.

Timings have been close to expected with regards to the financial business plan, some stories have gone over so story progress is not entirely accurate. This time over in stories is mainly due to ensuring the product retains the quality envisioned. The financial redundancy should get the team through to completion however some stores have been dropped and recorded in the change log, however the team lead will elaborate on this aspect.

Project Managers Comments:

Financially the company is on track but overall we are behind on feature development. Some features have had to be cut or pushed back depending on their overall importance to the companies vision of the application. The change log is updated with all these plan alterations.

Overall the company is in a healthy position and if we stay on track with the revised plan we will hit our targets for an application that has unique features to bring value to the customers.
