## Minutes

Agenda item: Item #1 Presenter: James Pearson

### Discussion:

Discuss the progress of the plan and current user stories being developed

social side- 'timeline' title is going to be changed to feed. it currently shows all the recent posts that the user follows. you can also attach a recipe, photo and a rating. The next step is getting the posts to actually post Also the recipes used in the posts are the ones from the meal planner so these need to be changed into the original ones.

discussed if James C could add a back button on the meal planner maily to differentiate it.

Joe discussed the new kudos class and how there are different tiers that increase exponentially. All agreed on this idea. currently working on tests and bits and bobs.

Shopping list discussed and decided that if it was very easy to add and subtract from the list it should be succident. Set up pages are done.

Nathan has finished all the searching sections. Currently working on searching for the users ID. some difficulties in this but talked through.

Jun nearly finished but needs to update his branch to be alongside the master branch.

James P- loading in ratings and linking reviews with the feed. He will be working on fixing the gaps below the screen

### Conclusions:

We are in a good place so far. Would be good to get all the current projects finished ASAP as second iteration deadline is coming up

Action items	Person responsible	Deadline
✓ continue with the planed bits and bobs	All	ongoing
✓		
✓		

---

**Agenda item:** Item # 2

**Presenter:** James Clawley

**Discussion:**

Step/Method entry for the recipe

Discussion on the best way to allow the user to create the recipes. 3 main ideas: 1, have a set form that they fill in and it creates the presentation 1, have it set like the screen and the user can see how it will look before submitting and then 3, allowing the user to completely design their own set up. Pros and cons discussed and James is going to have a play with it but most people liked the 2nd idea the best.

was also a discussion on where to use shapes in the presentation as this is a requirement of the specification.

**Conclusions:**

Action items	Person responsible	Deadline
✓ play about and see what works in regards to what has been discussed	James C	ongoing
✓ Look into shapes and how they can be used	Joe B	ongoing
✓		

---

**Agenda item:** Item #3

**Presenter:** James Pearson

**Discussion:**

Updates to plan and Healthy living system revision.

discussed as a group on the healthy living system. As it isn't a main part of our nproject thinking of pushing it down and if we have time at the end to incorporate it. also unable to get nutritional information due to shut API due to covid 19.

QA manual needs to be revised before monday.

**Conclusions:**

Action items	Person responsible	Deadline
✓ QA manual updates	ALL	Ongoing
✓		
✓
