

Test Report

Test Report Title:	Timeframe	Date	29/5/20
User story:	C17		
Unit Test Results:			
N/A			
Other Testing done:			
<p>Manual testing against Firebase collection. Changed Boolean values for recipes manually temporarily to see if the proper collections updated for breakfast, lunch and dinner. All worked fine.</p> <p>Also tested that this new functionality hasn't broken the existing issues we had with passing user data between RecipeFragments by sending the mUser data across as well as a unique request code for planner fragments.</p>
