Detailed report

05/25/2020 - 05/31/2020

Finance Managers Comments:

Total: 103:00:00 Billable: 103:00:00 Amount: 1,287.50 GBP

The team had predicted 75.25 hours for this week, the presentation preparation week of the project.

We have gone over on estimated hours in total of 81.75 for the entire project.

We have gone over on hours this week by 27.75 so have reduced the company redundancy to a negative of £29.08 meaning the company now has less time for our final meeting where we are only able to use the available funds for labour hours. The company will therefore refrain from gong over 4.5 hours in the final meeting.

From finishing iteration 3, there was still serval bugs and issues the team had to sort out before putting together the sales presentation to sell our final product. Now the team has done so, the team is all ready to hand in the project.

Financially we have been incredibly stable throughout the project and I think the team can be proud of what we have achieved in the time and resources used.

Project Managers Comments:

The final week of development saw some issues arise due the final big merge will all development branches. This increased the hours needed by the team to make the application stable again and produce the sales presentation. Solid work over the weekend has got us back into the position we wished to be in from the start. We have a solid product ready for delivery that we can all be proud of
