Minutes

Agenda item: Item #1 Presenter: James Pearson

Discussion:

Discuss the progress of the plan and current user stories being developed

James C- its going well, just need to upload it. Just need to add the colour picker for the background of the steps. We discussed this and there are a couple ways to implement this. One being download a library that has all the colours, the second being the user inputs in hex or the other have a few set colours the user can pick from.

Louis shared what he has been working on. The like issue is fixed and comments now work, also comment and liking on recipe posts. Pictures create a feed of uploaded pictures, clicking on the image takes you to the post. Looking really good

Jun has 3 separate fragments for the different meals of the day. Suggested that this is merged into one to reduce waste code.

Joe- portions on hold as having issues displaying ingredients to the screen. Currently working on chef starts and kudos.

Becky- have similar issues as Joe with changing the amount of ingredients needed but made progress from last week and implemented all changes

Nathan- picked up on user stories where tests were missing and going through the presentation writing tests. Going to look into advert next

James P - having issues populating on recycler view but hoping to sort that by the end of the week

Conclusions:

James is going to look into which way for the colour picker works the best.

Joe and Becky going to work together on their current issues

Action items	Person responsible	Deadline
✓ Put the 3 separate fragments into one	Jun	on going
✓ rewrite how recipe ingredients are stored	Becky and joe	next week if possible

✓ decided on what color system to use

James C

on going
