Detailed report

05/18/2020 - 05/24/2020

Total: 76:15:00 Billable: 76:15:00 Amount: 953.13 GBP

Finance Managers Comments:

The team had predicted 43.5 hours for this week, week 5 of iteration 3, the last official week of programming.

We have gone over on estimated hours in total of 54 for the entire project.

We have gone over on hours this week by 32.75 so have reduced the company redundancy which now stands at £317.79 extra in the pot. The company remains in a comfortable place financially.

The team has put a significant amount of time and effort in in the last week to push the application to the end of iteration 3. Although a couple of stories have still run mildly under, with a deadline approaching we are a couple of members down due to their attention being elsewhere. These stories are reaching the end though and the team should be finished shortly to get work underway for the presentation. We have used up a significant proportion of our redundancy, however as we are in the last two weeks this is all good news as long as it leads to a finished product we can be proud of and that brings value to our customers.

The team remains in a strong place financially and the restriction will remain off until the team has finished with a product we can be proud of.

Project Leader Comments:

Deadline for all stories and features in development to be finished is the 28/05/2020. This is to give the team ample time to work on the Sales Presentation and to fix bugs in the application. This is imperative so we can deliver a quality and robust product to the consumer.
