

Test Report

Test Report Title: Audio Engine Tests Date 22/3/20
User story: Audio Engine supplied by FixPack!
Unit Test Results:

Unit tests for the class in the file AudioURLTest.java written by NB. All tests pass successfully.

Other Testing done:

```
public class AudioTest extends RecordedEspressoHelper {

/**

* Manual audio timer tests have been conducted for the following conditions:

* (If time permits can try to approach adding Instrumentation tests).

*

* - Audio starts when timer play button is pressed.

* - Audio stops when timer runs out of time

* - Audio 'force' stops when slide is changed

* - Audio 'force' stops when the stop button is pressed.

* - Audio dosen't play on a slide with audio XML tags not included

* - Audio XML data is loaded properly & only 1 of each (looping + non-looping) is loaded in.

*/
```

Instrumentation tests in class AudioTest.java written by JB. All test pass successfully.
