Detailed report

04/27/2020 - 05/03/2020

Total: **32:15:00**   Billable: **32:15:00**   Amount: **403.13 GBP**

Finance Managers Comments:

The team had predicted 47.25 hours for this week, week 2 of iteration 3.
We have gone over on estimated hours in total of 8 for the entire project.
We have gone under on hours this week by 15 so have added to the company redundancy which now stands at £892.79 extra in the pot. The company remains in a comfortable place financially.

Due to deadlines and exams fast approaching, not all team members have been fully involved this week. With all change log items in place, the team is where is expected to be with regards to the Financial Business Plan. The team has the finances and hours required to finish the application.

One item of note is that there was a mistake on C34 offering 5 hours of programming time when only 2 hours was budgeted. This mistake can be rectified with the company financial redundancy. Even with this extra time, the story is now finished but again went over this 5 hour limit coming out at 9.25 hours. Design manager leading this story may require some remedial training to stay on a specific task.

Project Managers Comments:

Financially we're are in a good position but more alterations to the plan need to be made. Due to exams and other assignments production is down so focus needs to be on delivering our main features that have been backed up by the recent survey. This features are looking to be finished before the release in good time.
